

Have you considered a career in Learning Support?

If you have 6 hrs a week to volunteer at SGS College, supporting learners, we are offering limited free places on the **Supporting Teaching and Learning Level 2** qualification.

This exciting opportunity will commence in March at South Gloucestershire and Stroud College, Filton and Stroud Campus

Successful applicants (18 or above) will have a guaranteed placement of six hours a week at SGS College supporting English and Maths. This placement can be undertaken on either two mornings, two afternoons, or a full day per week.

This programme will allow participants the chance to gain experience in a college environment and achieve a qualification at the same time, both of which are invaluable to both schools and colleges.
