## Summary

This course is designed to give learners the core skills they need to progress, and for students who prefer to study more than one sector.

Students will prepare and serve food and drink by running a pop-up food stall out in the community at either a community event or a food festival in Term 3.

This course is based at our Filton campus, located in South Gloucestershire which is easily accessible from the city of Bristol by train (Bristol Parkway / Bristol Abbey Wood) and bus. As well as our Stroud campus in the centre of Gloucestershire, surrounded by the Cotswold Area of Outstanding Natural Beauty. The campus is a short walk from Stroud train station and easily accessible by bus.

## How will I know how I am doing?

A range of teaching methods will be used in the classroom, including: writing, reading, researching, presentations, discussions and producing a short film. Assignments will be issued every term to assess your understanding and knowledge. You will also run an event in the local community by preparing and serving food and drink.

## What do I need to join?

Ideally you will possess GCSE grade 2 or above in both English and Maths. Most important is a positive attitude and the willingness to learn.

## Apply online

## How will I learn?

### Maths & English

A key requirement for future progression and employment is a good understanding and application of knowledge and skills in both English and maths. Learners who are enrolled on this course will also, as part of their overall programme of study, be enrolled on either Functional Skills or GCSE programmes in English and Maths in order to progress towards gaining GCSE grade 4 in both subjects.

### Employability

We aim to provide you with the skills required to be able to progress into further study and training or employment upon completion of your programme of study. Key attributes required by employers are that individuals be enthusiastic, motivated, presentable (in some instances in company uniform), organised, articulate, able to think 'outside the box', business-like and enterprising, and that they have a 'can-do' attitude. We work on all these areas throughout the duration of your programme of study, and your tutor(s) will provide feedback on progress made, as well as areas for development.

### Work Experience

As part of your overall programme of study, learners will be required to undertake a period of work placement related to the field of employment they wish to enter. Our Work Placement Team will assist learners in gaining a placement and ensure that you are on track to achieve, whilst liaising with your course tutors to ensure that the opportunity to practice necessary employability skills is available at college.

### What can I do next?

Learners who successfully complete will be eligible for progression onto a Level 2 programme of study, or an apprenticeship in a related discipline.
