## Summary

This course covers all the skills needed to gain a GCSE Maths qualification. Lessons will focus on developing the skills needed to gain a grade 4 or higher and will focus on the following areas: numbers; algebra; ratio, proportion and rates of change; geometry and measures; probability and statistics.

## Enrol online

## How will I know how I am doing?

There are three exams at the end of the course: one non-calculator and two calculator. The exam dates are externally set and are the same nationwide, so you must ensure that you are available on these specific days. They are usually at the end of May and beginning of June.

## Additional Information

Lessons are three hours, once a week, in the daytime or evening, and could be at either the Filton Campus or the WISE Campus.
