Summary

This course is for learners who do not currently work within the electrical industry but may wish to do so, or for those who wish to develop their understanding and skills of electrical installation.

The qualification will not automatically make the individual an electrician, but will facilitate progression onto an industry-recognised qualification.

The guided learning hours are between 459 and 480, depending on which optional unit you choose.

This qualification allows the learner to acquire advanced underpinning knowledge and related skills in electrical installation.

The qualification has mandatory and optional units. The mandatory units cover electrical installation design, environmental technology systems, electrical science and principles, electrical installation craft, inspection, testing and commissioning, and diagnosing and correcting electrical faults.

Candidates will sit a range of online, multiple-choice exams, practical assessments and written assignments.

The course runs on a Tuesday and Wednesday evenings.

The course cost is £3345.

How will I learn?

Enrol online

Our dedicated construction department offer a hands-on learning environment, allowing learners to engage and develop skills within a construction site style setting. All courses are delivered by passionate and dedicated staff with a qualified trade background. All the material and equipment you will use matches the tools available on construction sites.

This course is based at our Filton campus, located in South Gloucestershire which is easily accessible from the city of Bristol by train (Bristol Parkway / Bristol Abbey Wood) and bus.

Entry Requirements

This course requires you to have GCSE Grade 4 in Maths and English and have a keen interest in the subject area. You will also need to be committed, punctual and demonstrate an enthusiasm for learning.

While also taking on new ideas and skills to help you reach your full potential within the trade. Ideally, learners will have completed a EAL Level 2 Diploma in Electrical Installation or be able to demonstrate knowledge of the trade and complete a skills assessment and details about this will be provided.

If you successfully gain a place on this exciting construction course you will be expected to wear safety boots on site at all times, these must have steel toe caps and meet regulations.

If you have any questions regarding entry requirements please email construction@sgscol.ac.uk before completing an online application.
