Summary

Over this 4 week course, you will learn new skills in how to create items with clay under the guidance of SGS College Ceramic Artist Aimee Lax, an occupational specialist who has recently had a residency at the Victoria and Albert museum in London.

Each week you will create a unique piece of ceramic art, using air drying clay. This is an ideal creative activity to do to keep the mind busy and the brain active.

Using tools and materials found at home, you will create unique plant pots and bowls, trinket boxes, candle holders and other useful and fun ideas. You only need to buy a lump of air drying clay.

Taking part in this free course means that this will be a stimulating few hours where you can spend quality time doing something fun whilst developing new skills.

You may also be interested in our Family Play with Clay course, that allows you to develop your child's creative skills.

How will I learn?

With this course we have brought the classroom to you and created an 4 week interactive online learning environment. These sessions are never pre-recorded and like in a classroom you will have a teacher and other students interacting with you live on set teaching dates. Allowing you to ask questions and gain skills all without leaving your desk.
