

Childcare Payment Schedule 2020/21

Providers Copy

The below table shows when Childcare payments for the attached student will be made to your account. These dates are the latest you can expect to receive each payment, however on occasion they may reach your account sooner. The student has also received a copy of this information for their records.

Payments will only be made if the students attendance is at 90% or above at the time of payment and their behaviour meets the College code of conduct. We will not issue payment for any periods that the student does not meet these guidelines in which case the student will be responsible for any outstanding amounts and will need to arrange payment with you directly.

Childcare payments are made on a termly basis. We are unable to financially support students until they have completed their probationary period and therefore cannot issue any funding until the first payment date. We are also unable to support with cash, advanced, or backdated payments at any point during the academic year.

If you change your bank details at any point during the academic year, please make us aware as soon as possible.

1st November 2020

1st January 2021

1st March 2021
